Mr. Abdulaziz El Bagoury
CEO & FOUNDER

Since 1994, the final touches of the project "195 roads" (**Mansoura ring road**) has been laid. The location of this road casts a futuristic vision because since day one of its construction it has been and still the lifestream of Mansoura city.

Over time, its importance became clear to everyone because it links several main roads and subways.

Our vision for the coming period is that it will be the main attraction destination in a very short time.
